

ORGANIZE SESSION

CONVERSATION CARD

Find a seat with your family.

Introduce yourself to other families nearby.

Take turns asking each other questions using the Conversation Card provided.

ORGANIZE

Conversation Card

Take turns asking these questions to the people around you.
Mark off the box for every question you get answered.

How are things organized in this room? Are they grouped by color, shape, size?	When in your day do you have to follow a plan with many steps?	What do you do first during your free time after school?
What is a goal you would like to achieve? How will you meet that goal?	If you could plan how to spend money for your school, what would you want to spend money on?	What do you think <i>organize</i> means?

REVIEW

Talking Points:

- Take some time to review the last Skillsville Session. Point to the icon and see if families can remember what the Success Skill was. What was the strategy you learned at the last session?
- Ask if they noticed when they were using the Success Skill and Strategy
- (Heart and head- Feel; Magnifier – Focus; List with checkmark - Organize; Thinking bubble – Remember; Lightbulb – Think Differently)
- If this is your first Success Skill session, ask families what they remember from the kickoff session

ORGANIZE

- Organize is a Success Skill
- It means “to keep track of different information and belongings, and put them in an order that makes sense to you.”

Talking Points:

- When we make a plan, put things in order from most to least important or sort things in different groups, we use the Organize Success Skill.
- Ask families to share if they can think of some examples of when they use the Organize Success Skill (examples: when we follow are cooking and follow a recipe, when we make a list of things to do, when we sort our laundry)

**If you could only visit 3 places in this scene from Skillsville, where would you go?
What would you see first? Second? Last? Why?**

Talking Points:

- There are some very interesting things to see and do in Skillsville!
- Make a plan for what you would do if you were going to visit Skillsville but could visit only 3 places.
- What order would you see them?

EPISODE

- What problems did Dev solve?
- Why do **Paleontologists** need to get **Organized** and follow a plan?
- What strategy does Dev use to help him get **Organized**?

1. Tell families that after they watch today's episode, they'll answer these three questions.
2. In the Skillsville Platform, open the Organize bundle and play the Paleontologist episode.
3. After the episode, ask families the three questions. You might have them turn to their family to share and then offer to have them share out as a whole group.

RESUME BUILDER

- Make sure you have the correct resume
- Identify and color in the career we learned about in today's episode

1. Pass out Resumes making sure that children get the resume builder with their name and correct QR code on it
2. Try to have children just color in the Paleontologist icon

Talking Points:

- When grown-ups apply for a new career, they usually make something called a resume.
- A resume shows what careers you have experience with and what skills you have that can help you with your careers.

STRATEGY

- Practice the Counting strategy
- Tell a family member what it was like to use the Counting strategy

1. Open the Skillsville Platform to the Organize bundle and play the strategy video (pause symbol)
2. Guide families through a Counting strategy as a whole group (ask them to choose a shape and then find as many items in the room that are that shape). You could make a list of the shapes people identified and write how many things of that shape they found.

Talking Points:

- We can use the counting strategy when we are using the Organize Success Skill like when we are sorting laundry and counting which pile has more pieces of clothes
- Ask families how they could use this strategy at home or school with the Organize Success Skill? (examples: I have a pile of coins, I'm going to sort them by type and count each of them)

FIT THE BUDGET

Skillsville needs a Treasurer

Use the Organize Success Skill to organize a budget for a sports team

HOW TO PLAY

1. Pass out sports equipment

Playing in pairs, give each player 5 random pieces of sports equipment and 1 budget sheet.
Place the sports equipment on your budget sheet.

2. Work together!

Rotate your pieces or trade pieces with a partner to make them fit on your budget

ASK YOUR CHILD

- Why do you think Treasurers need to Organize?
- What is another job that also uses the Organize Success Skill?
- Why is it important to use the Organize Success Skill when working with people?

1. Before passing out the materials, open and play the video for Fit the Budget in the Organize bundle for families.
2. Then, give each family one How To sheet and each person a budget and a set of equipment pieces.
3. Have this slide showing and give families 10 - 15 minutes to play.
4. Let families know they can keep their games to play at home.

- Find your resume
- Identify and color in the career we learned about in today's paper game

Have children take out their resume builders and color in the Treasurer image
 Talking Points

- Ask children how a treasurer might use the Organize Success Skill

STRATEGY

- Practice the Counting strategy
- Are there more kids or adults in this space? Count the number of kids and then count the number of adults.

Talking Points:

- Before using the Organize Success Skill again in a different game, guide families through another Counting strategy.
- Encourage them to check in with one another to see how many adults and kids they found in the room.
- Ask families what other things they could look for and sort in the room (people's shirt colors, shoe types, colors of furniture, etc)

PLAN PACK GO

You are a Delivery Driver!

Use the Organize Success Skill to make a plan, and prioritize your route to earn all the badges.

HOW TO PLAY

1. **Load your vehicle!**
Tap on the boxes.
2. **Plan your route!**
Tap or drag where you want your vehicle to go.
3. **Earn a badge!**
There are badges for distance, time, and deliveries.

ASK YOUR CHILD

- What information do you need to make deliveries?
- Which level was hardest to plan for? Was it because of time or distance?
- How do you think your Delivery Driver decides where to go first?

1. After explaining the game, pass out a tablet to each family. Each family should get headphones and a splitter so caregivers can also listen to the game.
 - To help families log in, have them tap the Google Chrome icon to open the Platform. Then, they can scan their QR code on the resume.
2. After families play for 15 – 20 minutes, give families a two-minute warning before their time is up
3. Let families know that while their time is over for now, they'll play more Skillsville games next week.
4. Collect tablets and headphones

- Find your resume
- Identify and color in the career we learned about in today's digital game

Have children color in the Delivery Driver image. Then, have children circle or color in the Organize success skill icon.

Talking Points:

- Review the careers children learned about in the day's session
- Ask children and families if they are interested in one or more of the careers and why
- Collect resumes after this step and let families know you will pass them back next week.

RECAP

- Today we learned about the **Organize Success Skill** and practiced the **Counting Strategy**.
- We talked about careers like **Paleontologist**, **Treasurer**, and **Delivery Driver**.

Talking Points:

- Review what you did today
- Let families know they will get a Skillsville To Go handout on their way out

JOIN US AGAIN NEXT TIME

BUDGET

ORGANIZE Skillsville To-Go

WHAT WE LEARNED TODAY
The **Organize** Success Skill means, "keep track of different information and belongings and put them in an order that makes sense to you."

The strategy we learned was **Counting**.

Some careers we learned were **Farmer**, **Treasurer**, and **Delivery Driver**.

USE THE ORGANIZE SUCCESS SKILL AT HOME
Think about something you'd like what you need to do to meet that goal. Share ideas of how the people in your family can help you meet that goal.

GOAL	STEPS TO MEET MY GOAL	HOW CAN MY FAMILY HELP?
I want to be able to...	First	
	Next	
	Then	

USE THE COUNTING STRATEGY
Practice using the Counting Strategy throughout your day. Count how many tasks are in your morning routine as you get ready. You can count how many socks you find as you do laundry. Count the steps you do as you cook a meal. Counting can help you plan and prioritize!

LATER, GAMERS!

Talking points:

- Edit the slide in Google Slides to let families know when they should return
- Tell families they can take their copy of Fit the Budget as well as a Skillsville To-Go handout on their way out.
